

Motorized Awnings

Open-Roll Style

Reliable everyday shade in moderate conditions.

Semi-Cassette Style

Classic choice with balance of cost and protection.

Full-Cassette Style

Contemporary design with maximum fade protection.

Leading the
Way in a New
Era of Awnings

Advanced Solar Control

Adjustable shading and UV protection for greater comfort and improved curb appeal.

Integrated Control & Safety Systems

Optional lighting and smart controls support automation, safety, and easier management.

Comprehensive Warranty

Backed by manufacturer warranties, giving you added confidence and peace of mind.

Enhanced Structural Durability

Corrosion-resistant components provide long-term reliability in demanding environments.

Project-Specific Configurability

Available in custom sizes, fabrics, and finishes fit a wide range of applications.

Optimized Performance & Value

Combines advanced design and quality materials to deliver strong performance at competitive pricing.

The Consultation & Installation Process

1

Consultation

A dealer evaluates your project site, sun patterns, and mounting options.

2

Custom Design

You choose cassette style, size, fabric, frame finish, and accessories.

3

Custom Build

Your awning is manufactured to your exact specifications.

4

Professional Installation

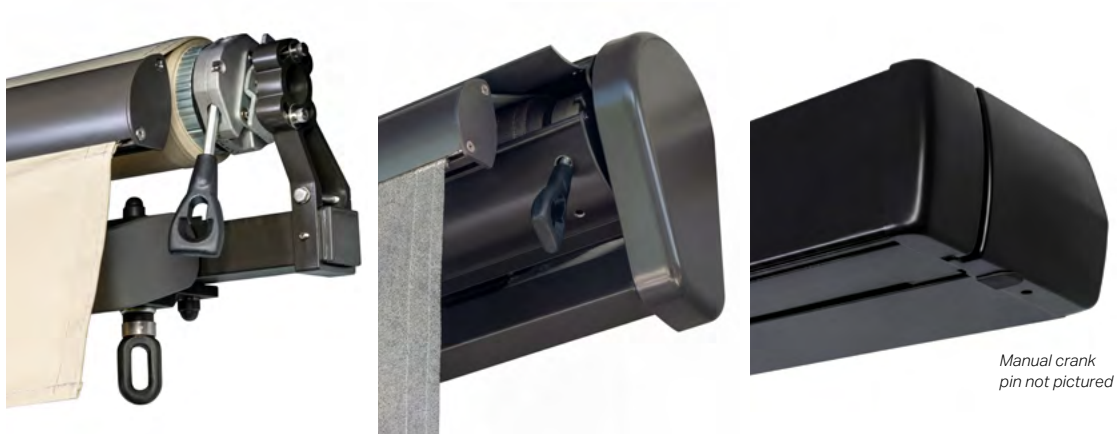

Experts mount and calibrate motors and sensors for smooth, safe operation.

Installation Experts

- We ensure every motorized retractable awning results in a seamless and durable extension of your home or business.
- Factory-trained, technical experts in mounting and load requirements
 - Knowledge of fabrics, motorization, and smart controls
 - Design guidance so the system enhances your home, not just shades it

Three Distinct Styles

	Open-Roll Style Motorized Awning	Semi-Cassette Motorized Awning	Full-Cassette Motorized Awning
Best For	Budget-minded	Balance of cost and protection	Homes in regions with extreme weather, or active wildlife
Protection Level	Fabric and arms fully exposed	Top and sides covered, bottom open	Fabric, arms, and roller are fully enclosed
Visual Aesthetic	Visually lightweight, with an exposed valance when retracted	Classic styling, with an exposed valance when retracted	Contemporary profile, with no exposed fabric when retracted
Cost	\$	\$\$	\$\$\$
Why Choose This Style?	• Low-profile design that integrates seamlessly with the home's architecture. • Easy access for service	• Fabric is partially shielded from vertical rain and debris, helping it stay cleaner. • Built-in, adjustable LED lights for evening enjoyment. • Spans that exceed 20'	• The fabric and arms are fully sealed within the housing when retracted, protecting them from weather and pests. • Built-in, adjustable LED lights for evening enjoyment.

Top 3 Functions of a Cassette

- 1 **Prevents weather damage** to fabric and arms from rain, UV rays, and ice when retracted.
- 2 **Helps preserve fabric color** and prolong the life of motorized parts by shielding them from daily exposure.
- 3 **Conceals components** to prevent dirt, leaves, and insects from gathering when the awning is not in use.

Open-Roll Style

Open-Roll Awning with optional hood shown in Navy Frost with white hardware

Open-Roll Awning shown in Beige Solid with bronze hardware

OPEN-ROLL STYLE
Product Video

Warranty

Our open-roll style awnings come with a comprehensive 5-year warranty that is non-prorated and covers hardware, fabric, and motor.

High-Strength Hardware

Features a sleek, straight design that omits integrated electronics. It uses the same high-strength arm system and heavy-duty front bar found in our flagship models.

Optional Protective Hood

The optional hood offers about 50% coverage when retracted. This protects the fabric from UV damage and debris.

Manual Override & Crank Pitch

The integrated manual override ensures control during power outages, while the manual crank pitch allows for precise slope adjustments to track the sun.

Semi-Cassette Style

SEMI-CASSETTE STYLE
Product Video

Warranty
Our semi-cassette style awnings come with a comprehensive 10-year warranty that is non-prorated and covers hardware, fabric, and motor.

- Integrated Lighting**

The arms feature integrated LED lights that can be adjusted with a remote control at no additional cost or with separate installation.
- EZ-Pitch Adjustment**

Utilizes a crank and pitch pin to allow manual slope adjustments—providing a flexible way for users to customize their shade for any time of day.
- Multi-Use Front Bar**

The front bar supports useful add-ons like wind sensors, wind poles, and drop screens. This helps improve comfort, making the outdoor space more functional and enjoyable.

Warranty

Our full-cassette style awnings come with a comprehensive 10-year warranty that is non-prorated and covers hardware, fabric, and motor.

Integrated Lighting

The arms feature integrated LED lights that can be adjusted with a remote control at no additional cost or with separate installation.

Maximum Protection

Thoughtfully hides all components and fabric inside a full-cassette housing, providing protection from the elements and wildlife.

Contemporary Design

Features a more square profile and a front bar without a valance, resulting in a sleek, modern appearance whether extended or retracted.
