Motorized Awnings

Open-Roll Style

Effortless, everyday design

Semi-Cassette Style

Classic, versatile design

Full-Cassette Style

Sleek, contemporary design

Smart Comfort. Proven Durability.

Our awnings make outdoor comfort accessible to every lifestyle, combining smart innovation, dependable performance, and stylish design.

Advanced Solar Control

Adjustable shading and UV protection for greater comfort and improved curb appeal.

Project-Specific Configurability

Custom sizes, fabrics, and finishes fit a wide range of applications.

Enhanced Structural Durability

Corrosion-resistant components provide long-term reliability in demanding environments.

Comprehensive Warranty

Backed by extensive manufacturer warranties, giving you added confidence and long-term peace of mind.

Integrated Control & Safety Systems

Optional lighting and smart controls support automation, safety, and easier management.

Optimized Performance & Value

Advanced design and quality materials deliver strong performance at competitive pricing.

Open-Roll Style

A great choice for covered patios and sheltered spaces, offering a clean, low-profile look. The open design allows for easy service access while providing dependable shade and practical protection in protected areas, making it an attractive and cost-effective solution for comfortable outdoor living.

Available
Sizes

- 10' wide x 8' projection
- 12' wide x 10' projection
- 14' wide x 10' projection
- 16' wide x 10' projection
- 20' wide x 10' projection

Optional Protective Hood

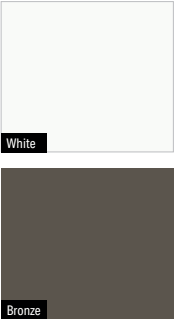

The optional hood offers about 50% coverage when retracted. This protects the fabric from UV damage and debris.

Manual Override & Crank Pitch

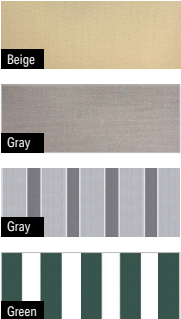

The integrated manual override ensures control during power outages, while the manual crank pitch allows for slope adjustments.

Upgrade Fabrics

Semi-Cassette Style

Benefit from a balance of style, comfort, and protection. The semi-enclosed design helps shield the fabric from rain and debris, while built-in, adjustable LED lighting extends enjoyment well into the evening. With spans exceeding 20 feet, it's a smart and attractive solution for enhancing larger outdoor living areas.

Integrated Lighting

The arms feature integrated LED lights that can be adjusted with a remote control at no additional cost or with separate installation.

EZ-Pitch Adjustment

Utilizes a crank and pitch pin to allow manual slope adjustments, providing a flexible way for users to customize their shade for any time of day.

Full-Cassette Style

Enjoy exceptional protection and lasting peace of mind. When retracted, the fabric, arms, and roller are fully enclosed, helping preserve the awning's beauty by shielding it from UV exposure, and the elements. This design also helps keep pests from nesting, making it an excellent choice for long-lasting performance.

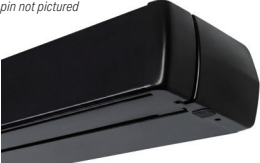

Contemporary Design

Features a more square profile and a front bar without a valance, resulting in a sleek, modern appearance when extended or retracted.

Maximum Protection

*Manual crank
pin not pictured*

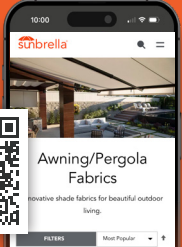

Thoughtfully hides all technology and fabric inside a full-cassette housing, providing protection from the elements and wildlife.
